

“I want to look years younger without surgery.”

THE “LIQUID LIFT,” OR INJECTABLE FACELIFT, HAS BECOME AN OPTION FOR THOSE WHO ARE LOOKING TO ADDRESS THE SIGNS OF AGING BUT ARE NOT READY FOR OR WILLING TO ENDURE SURGERY. DURING THE PROCEDURE, WHICH SHOULD ALWAYS BE PERFORMED BY AN EXPERT INJECTOR, A VARIETY OF INJECTABLES AND FILLERS ARE USED TO ADD BACK LOST VOLUME AND FILL IN LINES AND WRINKLES. IT’S IMPORTANT TO KNOW THAT THE RESULTS ARE NOT LONG-LASTING, NOR CAN THE TREATMENT ADDRESS EXCESS SKIN OR SKIN LAXITY LIKE SURGERY CAN.

01

To correct minimal signs of aging, this patient had:

- A** Botox injected into her crow’s-feet.
- B** Botox injected into the glabellar lines between her eyebrows.
- C** Perlane (a hyaluronic acid filler) injected into the nasolabial folds.
- D** Perlane injected into the tear troughs.
- E** Perlane injected into the tip of the nose.
- F** Perlane injected into the cupid bow of the lips.
